Duke Eye Center

Building Project in Sierra Leone

- Connaught NEH
 - 1 slit lamp
 - 1 OR microscope
 - About 2000 sq. ft.
- Future
 - Training 7 new eye surgeons in 4 years
 - 4 surgeons currently

Duke Eye Center

Education Partnerships in South Sudan

Duke Eye Center

Basic Principles of Duke GO

Quality	Partnership	Lasting Impact
		

Duke Eye Center

Very high quality surgery and outcomes

- Best outcomes possible / Best practices
- No diminished care
- Outcome tracking
- Established follow-up

	
---	---

Duke Eye Center

We use primarily local teams for surgery

We go only places where we are invited.

Follow local laws and medical licensing

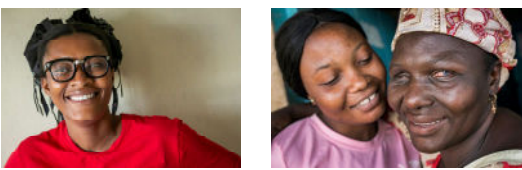

Duke Eye Center

Humility:
We train
(and learn from)
local doctors

Duke Eye Center

Long-term Partnerships:
52 Transplants in 3 years in Sierra Leone

Duke Eye Center

How to Get Involved.

- Find local partners – or get involved with organizations already locally embedded
- Plan to learn new skills
- Plan to be flexible and uncomfortable (sometimes)
- Have fun and cure blindness!
